

THE CORPORATION OF THE TOWNSHIP OF AUGUSTA

BY-LAW NUMBER 2261

BEING A BY-LAW TO ESTABLISH A MUNICIPAL ADDRESSING SYSTEM

FOR THE TOWNSHIP OF AUGUSTA

WHEREAS authority is given in Paragraph 112 of Section 210 of the Municipal Act, R.S.O. 1990, chapter M.45 for numbering the buildings and lots along any highway, beach, park, reserve or any other property in the municipality that is considered necessary to number by Council and for affixing numbers to designated such property.

AND WHEREAS it is deemed advisable to establish a system of numbering said buildings and developed lots in the Township of Augusta and to provide the authority to administration for its implementation;

NOW THEREFORE the Council of the Township of Augusta enacts as follows:

- (1) This By-law may be referred to as the "Municipal Addressing System By-law" which provides an agreed upon system of property identification that will assist emergency and delivery services and outlines a system that is capable of accommodating growth.
- (2)
 - (a) "Municipality" shall mean all areas within the corporate and geographic boundaries of the Township of Augusta.
 - (b) "Municipal Address" shall mean the road or "Street" name and the "Number(s)" as assigned by the Township of Augusta as per the guidelines of (3) below and in accordance with the attached Appendix "A", which identifies the general grid block limits and exceptions thereto by which numbers are assigned and the "Street" Names, as may be amended by Council from time-to-time where deemed desirable.
 - (c) "Number"/"Number(s)" shall mean the single or multiple digit number(s) designated by the Township of Augusta to identify individual properties/structures on properties, and (with the "Street" name) may be used in conjunction with a rural route mailing address, but not to replace the present mailing address designated by Canada Post, unless otherwise authorized by Canada Post.
 - (d) "Sub-Numbers(s)" shall mean any added unit or building number(s)/alphabetic character(s) attached to the property "Number(s)" assigned by the Township of Augusta to identify units or multiple structures on one lot. "Sub-Numbers", where assigned, shall be referenced in conjunction with assigned "number".
 - (e) "Street" shall mean any public or private highway, road, street lane, alley or thoroughfare within the municipality.
 - (f) "Owner" shall mean a person or persons who is in legal possession of a property and also includes a person for the time being who manages the property or receives rent for it, or who pays Municipal taxes on the property, whether on his account or as an agent or trustee of any other person, who would carry out the aforementioned duties if the property were let, and shall also include a lessee or occupant of the property who under the terms of the lease is required to repair and maintain the property.

- (g) "Property" means a parcel of land, described in a Deed or other document legally capable of conveying land, or shown as a lot or block on a registered Plan of Subdivision but excludes vacant property.
- (h) "Corporation" shall mean the Corporation of the Township of Augusta and its administrators.
- (3) The "Corporation" shall assign each Municipal Address, "Number(s)" and "Sub-Number(s)" where required and corresponding "Street" name, to every "property" in accordance with the following standards:
- * "Number(s)" assignment shall correspond to the location of the driveway access off the "Street".
 - * "Number(s)" shall be assigned in accordance with the mapped grid block system, and noted exceptions as provided in appendix "A".
 - * multiple "Numbers" or "Sub-numbers" shall be assigned where deemed necessary to identify multiple structures /units.
 - * numbers shall generally be assigned beginning at the south and west limit of a road.
 - * even numbers shall be assigned to the north and west sides of a "Street", while odd numbers shall be assigned to the south and east sides. Exceptions to this number assignment may exist along streets which fork into two directions.
 - * in the case of crescents and U-looped streets, or when a street changes direction, the predominant direction determines which side of the street received odd or even numbers. Odd and Even numbers are never transposed because of a change in street direction.
 - * on cul-de-sacs and small courts, the change from odd to even numbering occurs at a point as close as possible to the centre line of the street, at the limit of the turning circle.
 - * for curved streets or streets with sharp turns, allowances are made in the numbering sequence to compensate for the greater number of allocated "numbers" around the outside of the curve.
 - * "Street" names assigned to the "Number(s)" shall be assigned in accordance with Appendix "A", or as may be amended by the Township.
