

## **AUGUSTA TOWNSHIP**

ADDENDUM NO.2

TENDER CLOSING DATE: April 15th, 2026

ADDENDUM ISSUED: March 19th, 2026

Question: Are there any drawings for the Charleville bridge?

We will need to know where the bridge is located, and the repair locations for pricing.

(i.e. abutment faces, overwater, type of expansion joint repairs, etc.)

Answer 1: No Drawing is available for the Charleville bridge

- The Bridge is located on Charleville Road, 160m north of Skakum Road
- The concrete removal is type "C" - abutments, wingwalls. The contractor is to assume that the abutment and wing wall will require work over/ Next to water.
- The Crack Repairs are required on the Abutments & Wing Walls Contract
