

**AGRISPIRIT GRANT
FARM CREDIT CANADA**

In November 2021 Augusta Fire received a grant the AgriSpirit Grant from Farm Credit Canada to replace the 2 oil furnaces at Station 2 in North Augusta that were over 15 years old and getting difficult to find replacement parts for. The AgriSpirit Grant provided Augusta Fire with \$20,000 to replace both aging oil furnaces with new energy efficient propane furnaces and provide fencing to protect the propane tanks from damage and especially from the North Augusta Ball Diamond. All installations were completed by December 2022.

Augusta Fire is very grateful to Farm Credit Canada for providing us with this grant and allowing our Fire Station to continue to function for our firefighters, volunteer associations and other members of the community.
