

Helpful Tips When Voting

Telephone Voting

- Your Personal Identification Number is your PIN – the number listed on your voting letter.
- It is **VERY** important that you listen carefully and follow the directions given for which buttons to push and when.
- When voting for **COUNCILLOR**, you must select all of the candidates you will to vote for (a total of **THREE**) and then press # (pound). If you press # after your first selection (like you do for Mayor and Deputy Mayor) it assumes you only want to vote for one Councillor and will end your session.

Online/Internet Voting

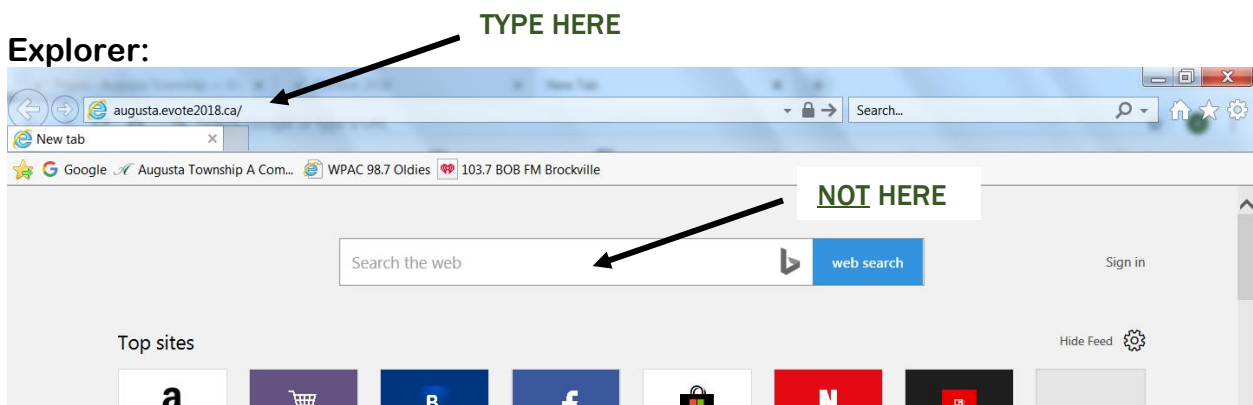

- If you are using an older/out of date version of Explorer as your browser, you may have issues logging on to the voting site. If this occurs, we suggest switching to either Chrome or Firefox as there have been no reported issues using either of these. Most computers have more than one browser available.

To find another browser, click on the Start button and type in either Chrome or Firefox and if you have it, it will come up on the list, just click on it.

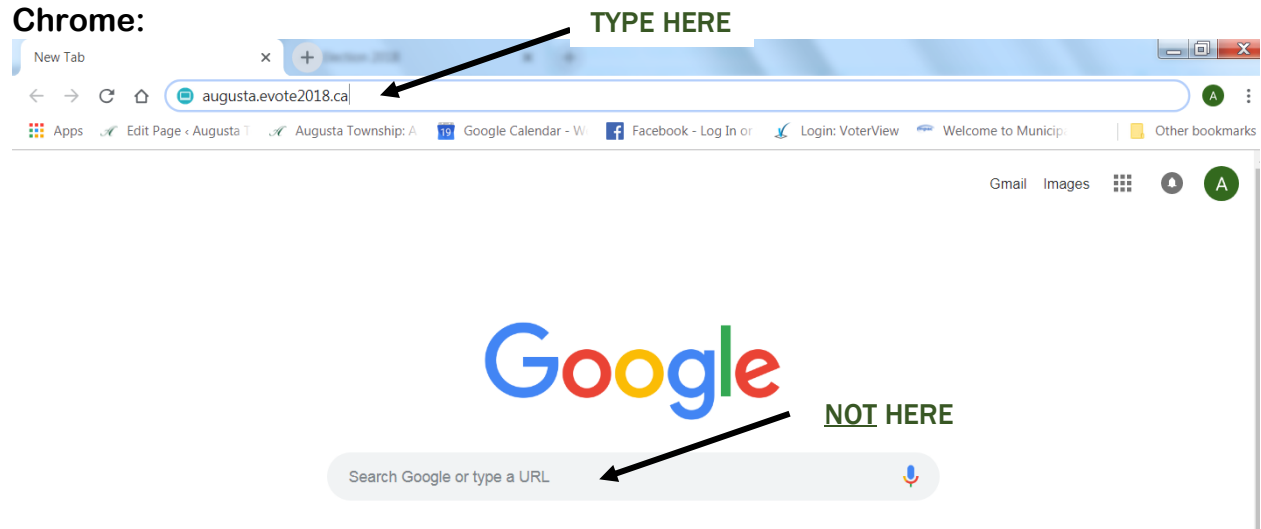

- Type the website address (augusta.evot2018.ca) into the bar at the **TOP** of the page, not in the search box.

Explorer:

Chrome:

- Do not type **www.** in front of **augusta.evot2018.ca**. If you do, it will **NOT** work.

After trying these tips, if you still require assistance, please call the Township office on Monday (we open at 8:30am) or come in to the office once paper ballot voting begins (10am).
