

2. Reporting on outcomes

Conduct a final self-assessment using the Asset Management Readiness Scale. We recommend that you bring a cross-functional group of staff together to do this assessment. Referring to the Asset Management Readiness Scale, look at the outcome statements for each level. Identify which outcomes you have achieved. If you have completed all the outcomes for a particular level, you have completed that level. Based on your self-assessment, complete the table below.

Competency	Project readiness level at start of project (as stated in application)	Project readiness level at end of project (level for which you have completed all outcomes)	Notes on progress made For each outcome area in which you made progress during the project, provide one sentence to describe the actions taken. (Note: these areas correspond with outcomes identified in the Asset Management Readiness Scale)
